of the most enlightened nations of the earth." The nomination for the vice-presidency is still in doubt, although it is believed that Garrett A. Hobart of New Jersey has a better chance than any other man yet mentioned. The McKinley managers will not favor the claims of any vice-presidential candidates until after McKinley has been nominated. Last evening the McKinley mass-meeting at the exposition building and the address by Chauncey M. Depew at the convention hall helped to enliven the town. The day was given over to the business of organization. The greatest interest was manifest in the

for his action in opposing free silver in the United States senate. The Michigan delegation had a long discussion on the financial plank. General Alger and Captain Allen representing the two extremes, the former favoring a straight declaration for gold and Captain Allen appealing for free silver. The majority of the delegation, however, believed in steering a middle course, and expressed the opinion that the plank should declare for the maintenance of the present monetary system—gold, silver and paper—but avoid a specific declaration for the gold standard.

The Alabama delegation met at 10 a. m. and effected organization without delay. H. V. Casten, the Alabama platform committeeman, is unreservedly in favor of a platform declaring for sound money. The California delegation arrived at 9:30 to-day and took quarters at the Southern. National Committeeman N. W. Coney

with the leading commercial nations of the world." After the adoption of this plank the Massachusetts delegates were assigned to visit all the state headquarters to urge the support of this brief declaration on the money issue. Henry Cabot Lodge visited the Oregon headquarters and argued for the adoption of his plank, and during the day talked to the representatives of gold states.

Connecticut born and bred, a soldier of the union army, mayor of the city of Hartford four consecutive terms, governor of Connecticut two terms, he is a man who, as a matter of course, will make a formidable candidate.

### No Change in Representation.

St. Louis, Mo., June 16.—The republican national committee had under consideration this morning the resolution offered by Mr. Payne of Wisconsin providing for a change of the basis of representation in the national convention. Mr. Payne has amended the

ST. LOUIS, Mo., June 16.—The republican national convention is now in session. The temporary chairman's gavel fell at high noon, and the body of men that he called to order will nominate William McKinley for president and declare for a gold standard.

It is generally believed that the platform will be satisfactory to the gold standard men of all sections of the country and will not afford any degree of comfort to the silver states. Accord-

actions of the Reed men. All of the leaders in his interest were closeted until away after midnight. None of them appear sanguine of a chance to nominate the Maine man, but they say they are preparing for any exigency that may occur in the convention.

Senator-elect Foraker, who will be chairman of the committee on resolutions, said that the tariff plank will be a distinct declaration in favor of protection, but that the McKinley law will not be re-enacted. Conditions have changed, he said, and tariff laws must change with them. Senators Quay, Lodge, John S. Wise and others conferred with Senator Foraker, urging him to insist on the committee having gold put in the platform. The convention will be called to order, barring the usual delays, by Chairman Carter of the national committee, who will make a speech. Then after the usual reading of the call and the preliminary motions Temporary Chairman Fairbanks will be introduced. The roll of states will be called for the appointment of standing committees, and the convention will adjourn.

The greatest interest now centers upon the committee on resolutions. The bimetallicists claim there were so many equivocations in the resolutions adopted by the various states that the true result cannot be determined until the fight for the chairmanship of the committee on resolutions is settled. Senator Foraker is the McKinley men's choice. The Reed and "sound money" men are putting Henry C. Lodge of Massachusetts as the gold standard candidate for the chairmanship of the committee. If Mr. Lodge is elected it is said the fight for the adoption of a gold standard will be assured. Otherwise it will not be accomplished until the matter is brought before the convention.

WM. MCKINLEY.

ing to present reports thirty-two members of the resolution committee will be in favor of an outspoken declaration for the gold standard. The middle and southern states and some of the western states have led in the declaration of gold. From statements made by the silver men it is probable that after making an earnest fight they will walk out of the convention.

There is authority that ought to be authentic for stating that the following is regarded with favor by Maj. McKinley:

"The republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1875; since then every dollar has been as good as gold.

"We are unalterably opposed to every

of Texas says that if the national committee does not seat his friends who are prosecuting their contests this morning he will carry the fight into the credentials committee and the convention. If the result at the meeting of the state delegation is against him, Coney says he will make a statement, which he intimates will be sensational, as to the partisanship of the national committee.

The delegation from the state of Washington has made its selection of officers of the convention from that state. Mr. Burleigh, the member of the committee on resolutions, is favorable to gold.

The Minnesota delegates came out strong for a declaration in favor of the maintenance of the gold standard. They instructed ex-Governor Merriam, the representative of Minnesota on the committee on resolutions, to insist on a straight gold plank, and pledged the eighteen votes of the delegation in the

convention to stand by him to the end. The Indiana delegation was one of the first to complete its caucus, and with scarcely any opposition it declared against the use of the world gold in the proposed platform. The delegates were instructed by a practically unanimous vote to advocate the adoption of the money plank of the Indiana platform, with the reference to the ratio of 16 to 1 omitted. Gen. Lew Wallace of Crawfordsville was chosen member of the committee on resolution and the delegation then took a recess until 2 o'clock, when the question of a vice-presidential candidate was discussed.

### HENRY CABOT LODGE'S GOLD PLANK

The Massachusetts Man Drafts Resolution and Tries to Get Support.

St. Louis, Mo., June 16.—Henry Cabot Lodge gathered the Massachusetts delegates together Monday and told them the time had come to make a fight for a gold platform. The entire delegation will be with him. Mr. Lodge then submitted a terse and emphatic declaration and asked that it be adopted as the sense of the delegation and that the members get out and work for its adoption by the convention. MR. LODGE'S money plank reads as follows:

"We favor the maintenance of the existing gold standard and are opposed to the free coinage of silver except by international agreement for bimetallicism

of the committee on resolutions. The financial resolution as it was adopted after a long and heated discussion by a vote of 5 to 19, was as follows:

"We favor the use of gold, silver and paper as the money of the United States, all to be kept on a parity of value, and the enactment of necessary laws to accomplish the purpose. We also favor the use of silver as international money either through international agreement to secure a common ratio, with free coinage at such ratio by the agreeing nations, or by concurrent legislation of the leading nations to accomplish the same purpose.

"That pending such arrangement, which should be prompted by the power of the United States, it is unwise and inexpedient for the United States alone to adopt the free coinage of silver at the ratio of 16 to 1, and therefore we oppose such free coinage of silver."

This resolution was adopted after a number of others ranging all the way from a gold standard to almost silver coinage were disposed of. The resolution as it was passed was offered by Mr. Hensell for Senator Gear, and it is stated positively that Senator Allison prepared this resolution and gave it to Senator Gear to bring to St. Louis, and it was in his pocket when he reached this city.

### START A BOOM FOR BULKELEY.

St. Louis, June 16.—Ex-Gov. Morgan G. Bulkeley of Hartford, Conn., is the

resolution since first prepared. As presented it is as follows:

"Resolved, That the national committee recommend to the convention that hereafter the basis of representation from the several states shall be fixed at four delegates-at-large for each 7,000 votes or majority fraction thereof cast in each state for the republican electoral ticket at the last preceding election, and that each territory and the District of Columbia be entitled to six delegates, and that the delegates be apportioned to the several congressional districts of each state upon the same basis."

The committee, by a vote of 31 to 4 decided that it was inexpedient to make any recommendation.

### Platt Asked to Name His Man.

St. Louis, June 16.—The following was given to the Associated press from a reliable source, and is not denied by either Mr. Platt, Mr. Quay or Mr. Hanna. The Pennsylvania statesman visited Mr. Platt on behalf of Mr. Hanna and his friends, and told Mr. Platt that Mr. Hanna would like to have Mr. Platt name the candidate for vice-president. Mr. Platt told Mr. Quay that until the presidential question was decided he could not consent to take part in any vice-presidential matter. It is understood that later Mr. Platt will name a man whose name has not been mentioned in connection with the office.

### How the Delegates Stand.

St. Louis, Mo., June 16.—The latest estimate of the division of the states on the financial question is given to

made the following appointments:

State Chairman—Philetus Sawyer. Vice-Chairman—Eugene S. Elliott. Secretary—John M. Ewing. Permanent Organization—W. D. Hoard.

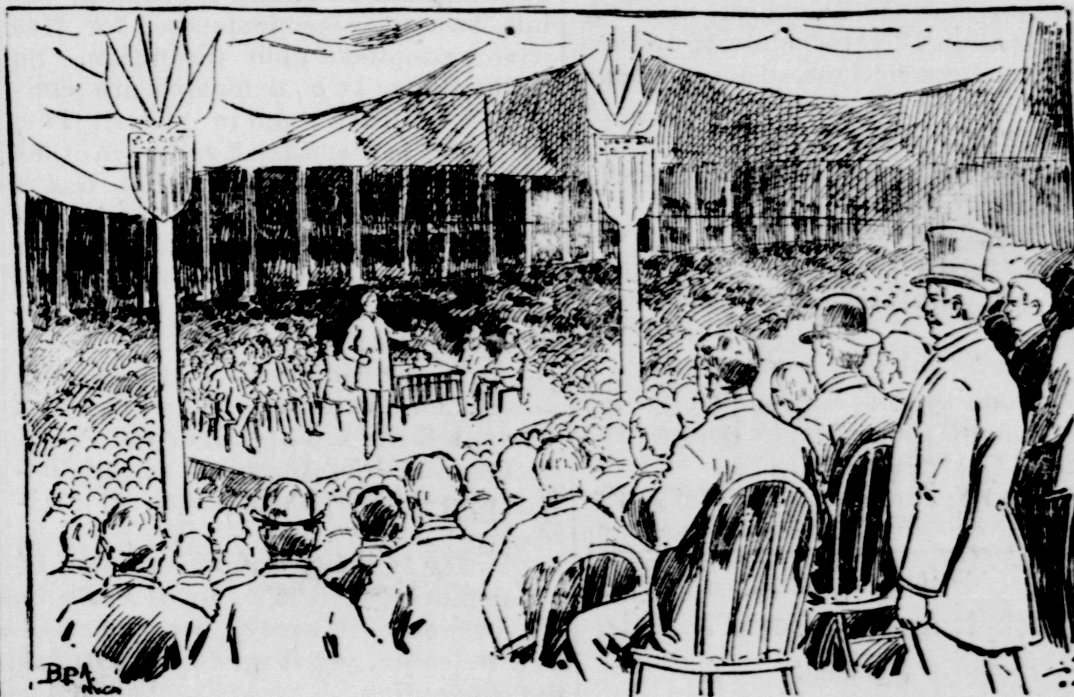

Rules of Order and Business—Charles S. Taylor. Credentials—G. G. Sedgwick. Resolutions—R. M. LaFollette. Member of National Committee—Henry C. Payne.

Notification—J. H. Stout. Honorary Chairman—J. H. Stout. Honorary Secretary—H. M. Youmans.

The delegation declared unanimously and unequivocally for gold and favor bimetallicism only by international agreement with the countries of Europe. M. C. Ring withdrew in Mr. LaFollette's favor. H. C. Payne's reappointment was a foregone conclusion, although there were eight negative votes cast.

Vilas Won't Vote for McKinley. Milwaukee, June 16.—Senator Vilas spent Sunday in this city. He was asked by a Journal reporter: "Did you see the report in the Chicago Tribune that you said you would vote for McKinley, and that Mr. Cleveland would also? Is it so?"

"Yes, I saw the statement. There is not a word of truth in it. I have never entertained such a purpose and I never heard Mr. Cleveland say a word which would give the least suspicion that he had. The story is fiction pure and simple, an election canard, when everything goes."

### The Convention in Session.

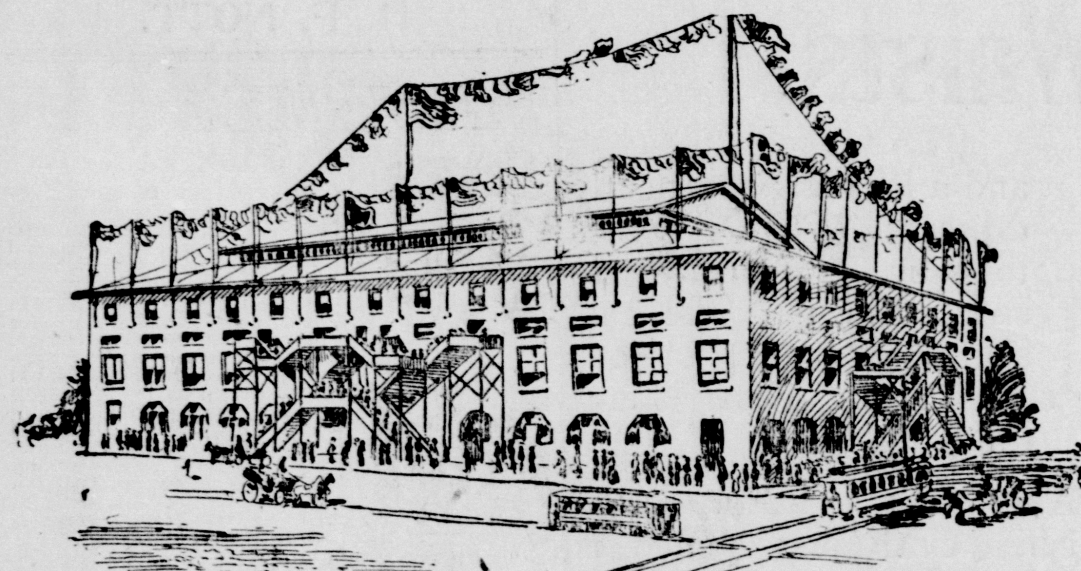

the associated press from the Editor's in the various movements and has been submitted to them in tabulated form and approved. The results are as follows:

For gold standard with the word gold in the plank, 330. For silver free coinage, 66. Against free coinage of silver, but without mentioning gold, 304. Doubtful states, 154.

### Morton Agrees to Accept.

St. Louis, Mo., June 16.—As a result of much telegraphic negotiation between St. Louis and Albany, it is definitely stated on what is believed to be good authority that Gov. Morton has finally yielded to the solicitations of his friends, and has agreed to accept the vice-presidential nomination, despite the split in the New York delegation. He is now to be vigorously pressed for the nomination.

### OREGON IS FOR GOLD.

Delegation Adopts a Strong Plank to Be Submitted.

St. Louis, June 16.—The Oregon delegation at a meeting on Monday adopted a resolution for gold, and will submit it to the national committee on resolutions. In addition to the declaration for the maintenance of the gold standard the delegation also adopted a resolution endorsing Senator McBride

measure calculated to debase our currency or impair the credit of our country. We are, therefore, opposed to the free and unlimited coinage of silver except by international agreement, which we favor, and until such agreement can be obtained, the existing gold standard should be preserved. We favor the use of silver as currency, but to the extent only that its parity with gold can be maintained, and we favor all measures designed to maintain inviolably the money of the United States, whether coin or paper, at the present standard

## THIS DAY IN HISTORY.

1815—Napoleon defeated Blucher at Ligny, and the allies defeated Ney at Quatre Bras, both preparatory to Waterloo. The defeat of Blucher at Ligny led to the battle on the field of Waterloo. Blucher retreated from Ligny to Waterloo. Ney's battle at Quatre Bras detained Wellington's troops and prevented the junction of the Prussian and English. Wellington retired to Waterloo to unite with Blucher. The fate of Napoleon was settled by these preliminaries, for his salvation lay in keeping the allies divided. 1866—Prussia set her armies in motion and the single campaign war with Austria began. 1886—Edwin Percy Whipple, author, died in Boston; born 1819. 1892—Tornado struck train in Wisconsin, killing several people. Lightning struck Grant statue at Chicago, killing 3 people.

## Fire Insurance.

Seven Massachusetts Mutual Fire Insurance Companies wrote policies during 1894, amounting to \$69,700,000. At its close they were carrying \$244,000,000. These seven companies average fifty-four years of age, and are old enough to know what they are doing.

The Beloit Fire Insurance Company of Beloit, Wis., was organized June 5, 1895, to secure insurance on first class risks, in the cities and villages of Rock, Greene, Dane, Jefferson and Walworth county, Wis., at actual cost and limited expenses on the plan of these Eastern mutuals. This company began to write insurance August 1, 1895. It is now ten months old, carrying over \$4,000,000 of insurance. Its losses have all been adjusted and paid, and if no greater in the future than in the past, over one-half the premium that has been paid in for the year will belong to the insured at its close. There are many instances in Beloit and other cities where as a result of the work of this company, agents of stock companies are already writing insurance on business risks at the 1892 rate. We shall thus save to five prominent insurers in Beloit not less than \$225 a year. Now, if you think you are paying to the companies too high a rate, drop a card to the above addressed, and ask for information, at the same time letting them know when you have a policy expiring and what on.

Don't Let Strangers Kiss the Baby.

"Your baby is the most lovely that was ever born," writes Isabel A. Mallon in Ladies' Home Journal, "but do not let strangers, in their desire to express their admiration of it, kiss the little lips that cannot object, or clasp tightly in their arms the little body that is, as yet, so tender. So many little ones are injured by promiscuous kissing that the wise mother tells the nurse that once she knows outsiders are permitted to kiss the baby her discharge without a reference will promptly follow. Hardhearted? No, indeed. Nurse must consider, first of all, her charge, even if, to the rest of the world, she is unwilling to display the baby entrusted to her care."

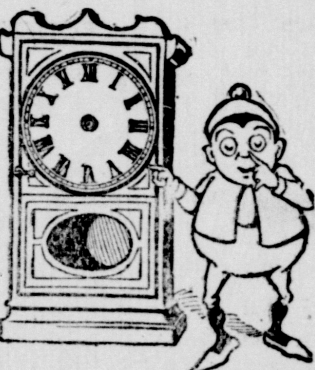

## Defiance of Law.

We, in the north, are horrified at the lynching in the south in defiance of law, but it is time we were horrified at the defiance of law by the liquor traffic all over the land.—Rev. J. W. Conley, Baptist, St. Paul, Minn.

Cupid breaks his bow at the sight of a face full of pimples and blotches. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body.

Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and by the infusion of its own ingredients it enriches the blood and so makes solid, healthy flesh. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood. Sold by all medicine dealers.

## SOME VERY BAD MEN LIVE IN THIS CITY

### SOULLESS POLITICAL SCOUNDRELS GOBBLE LAMBS.

Who are the "Bicycle Sports," "Race Track Enthusiasts" and Other Disreputables Who Have the Audacity To Oppose the Silver Angels From the Line City?

If the Beloit News can be believed, Janesville shelters some pretty bad citizens:

Among them are:  
"Bicycle sports."  
"Race track enthusiasts."  
"Tricksters."  
"Desciples of 'faro bank dishonesty.'"

Purveyor of "high handed villany."  
"Sporting gangs."  
"Deliverers of 'cowardly thrusts' and makers of statements 'only worthy of contempt.'"

"Doers of 'disreputable deeds.'"  
"Holders of a convention that 'dishonors rather than honors.'"

These people were at the democratic county convention Saturday, and the police made no effort to prevent them from doing the things with which they stand charged.

The News does not tell who the "bicycle sports" are. This is cruel, for if Janesville people had a list of them, they might know against whom they must lock their cellar doors, and bolt their parlor windows.

The Bicycle Riders.

However, the delegates from Janesville who own wheels were:

Richard Valentine.

George M. McKee.

V. P. Richardson.

W. E. Evenson.

A. M. Valentine.

Horace McElroy.

F. C. Burpee is also guilty of the gold bug crime of riding a bike but The News says he "believed in honest methods," so they evidently did not class him with the "sports."

And the race track enthusiasts.

Who are they?

The only man among the Janesville delegates who ever had anything to do with a race track, so far as The Gazette knows, is Alderman C. K. Miltimore, who has acted as marshal at the fair grounds, and by his horse-manship and good judgment prevented many a serious accident.

Can it be that Alderman Miltimore is a small army of "race track enthusiasts" whose leather lungs are capable of drowning the voices of a score of silver tongued silver bolters from Beloit?

And who made the cowardly thrusts worthy only of contempt?

Richard Valentine spoke of Clinton Babbitt's alleged vote on the Mills' bill and got a tremendous round of applause.

Did The News refer in the paragraph mentioned to Richard Valentine?

Who are the "tricksters," the "high handed villains," the "disreputables" and the other law breakers?

Names of the Delegates.

In order that Janesville people may know who the men are who attended this congress of evil doers, The Gazette reprints the list of delegates.

FIRST WARD.

Delegates—A. M. Valentine, Horace McElroy, Henry Garbutt and Martin Dunn.

SECOND WARD.

Delegates—J. H. Evenson, J. H. Burns, Paul L. Hinrichs and Charles H. Daly.

THIRD WARD.

Delegates—George M. McKee, J. B. Whitting, Richard Valentine and Victor P. Richardson.

FOURTH WARD.

Delegates—F. F. Connors, Chauncey K. Miltimore, Henry Hemming and Fred Kothman.

FIFTH WARD.

Delegates—J. B. McLean, Hugh M. Joyce, P. J. Mout and George Croft.

All law abiding citizens who can furnish the testimony to convict, should now come forth and depose.

Never Mind the Consequences

What matter it if the city is deprived of a city attorney and a few aldermen; if Valentines' school should be closed; if the Burns Spring & Gear company be compelled to abandon business; if the St. Paul company be left without an agent; if the Daly ice cream company's freezer be still; if the McKee lumber yard be locked up; if the New Doty company's foundry ceases to found; if the doors of the Janesville Machine company's foundry be bolted; if the Miltimore quarry shall yield up no more rock; if Henry Hemming leave his assessing unfinished; if Peter J. Mout be torn from The Recorder office, and cast into durance vile?

Away with them!

Let yawning cell doors open! Let it not be said that they are allowed to flourish in the Bower City, while Beloit angels eat the cake of humility and righteousness!

Metsker runs a democratic paper, and he has the proof!

Let the grand jury act!

## CONTRACT IS LET FOR A NEW BRIDGE

### A NORTH MILWAUKEE FIRM WILL BUILD IT.

Job Was Awarded to Them After All Bids Had Been Rejected as Too High—Structure Will Cost \$9,500, and Will Be Completed in Three Months.

The Wisconsin Bridge and Iron Company will build the new Indian Ford bridge.

The contract was awarded to the North Milwaukee concern this afternoon, but it has not yet been accepted by that concern. The committee having the matter in charge, Messrs. J. E. Gleason, Alex. White, C. E. Langworthy, S. L. Allen and M. Raybor met at District Attorney Jackson's office this afternoon, and made a special arrangement with the bridge concern and the structure will cost \$9,500.

The same committee met yesterday to open the bids, but all were rejected as being too high. A special arrangement was made afterward, however, and if the bridge company keeps its agreement, the new structure will be done in about three months.

The highest bid was that of the Chicago Bridge & Iron company—\$11,670, and the lowest that of the firm that got the contract—\$10,650.

The bidders were Milwaukee Bridge company; Clinton (Iowa) Bridge company; R. D. Wheaton company, Chicago; Wrought Iron Bridge company, of Canton, Ohio; Wisconsin Bridge company; Massillon (Ohio) Bridge company; Chicago Iron Bridge company and the Pennsylvania Bridge and Iron company of Beaver Falls, Pa.

## READY TO ORGANIZE FEDERATION BRANCH

### A ROUSING LABOR MEETING HELD LAST NIGHT.

Temporary Officers Elected, and the Managers Expect a Membership of About 100—Many Backward About Joining Until They Learn More About the Organization.

A rousing labor meeting was held in Union Labor hall, last evening, and the first steps for the formation of a branch of the American Federation of Labor were taken.

The meeting was purely a business one. Besides the election of temporary officers sixteen new men were taken in, the charter membership fee being placed at fifty cents. A large number of those present last evening, were backward about joining the new organization until they can further investigate its principles and workings. The Federated Trades branch would unite all the local unions and by the first of September they expect a membership of at least one hundred.

The officers chosen last evening are: President—Timothy McKeigue. Secretary—Ernest E. Clemons. Treasurer—Alfred P. Jerg.

**BOLTERS TO LEAVE THE FIELD.**

**Silver Men Will Stalk Out if Gold Wins the Day.**

St. Louis, Mo., June 16.—Everything indicates that the free silver delegates of Colorado, Utah and Idaho will walk out of the convention immediately after the vote is announced on the acceptance of the report of the committee on resolutions. Senator Teller of Colorado, Senator Dubois of Idaho and Senator Cannon of Utah, the big three of the free silver faction, are looked upon as men dead to the republican party. They were conferring together and holding conferences with other silver men all day Monday. They say that nothing definite has been decided upon.

When Senator Dubois was asked the flat question, "Will Colorado, Utah and Idaho bolt?" he became serious, looked grave and said:

"The convention will know what we will do as soon as the financial plank is adopted. We are going into the convention to fight to the last for free silver. When we have done our best—when we have gone as far as we can go, then we will act."

"That is, you will walk out of the convention."

"I did not say that."

"Are Colorado, Utah and Idaho a unit on that line of action?"

"Yes."

"What other states are with you in the agreement?"

"I did not say we had an agreement, but you may look out for startling developments in the convention. Some great surprises are in store."

That was all Senator Dubois would say of one of the most important series of conferences held in this city of St. Louis since the first badged delegate walked out of the bridge railroad depot.

The free silver men were watched closely by the McKinley managers and by the gold-standard men of the eastern states. The McKinley men and stalwart republicans, who think of the party first and platforms afterward, are much concerned over the threatened bolt. The number of electoral votes lost to the party is not the cause of this apprehension, but the leaders fear the moral effect a free-silver bolt will have on the voters of the country. This was frankly admitted. It is believed that Teller, Dubois, Canon and other free silver republicans will be regarded as martyrs to the cause and that their martyrdom will strengthen the free silver sentiment to a degree which will endanger McKinley's election this fall. The hotels are full of comments of that nature and bets are being made that South Dakota, New Mexico, Arizona, Nevada, Montana and Wyoming will go out with Senator Teller and his friends.

The struggle of the western silver states against the gold standard eastern states will begin in the committee on resolutions, of which Senator Teller will be a member. He will introduce an uncompromising free silver plank, and speak to his resolution. He will insist that this convention cannot straddle on the money issue, or beg the question by employing equivocal language or soothing rhetoric. In this he will be warmly supported by every committeeman who wants a gold standard platform, and for a time two extremes will meet and unite. Up to this point the silver men in the conference were of one mind, but when the matter of subsequent action came up two plans were proposed.

It was proposed to issue an address to the republicans of the United States explaining why the western republicans who believe in free silver will no longer be able to act with and affiliate on political lines with the republicans of the east. This address, it was explained, would be in the nature of a valedictory, for with the address the Idaho, Utah and Colorado delegates would leave the convention. The other plan was to submit a minority report, and fight it out on the floor of the hall.

Wyoming will introduce a plank which combines the free coinage of silver with the McKinley protection idea. In brief, the Wyoming plank declares for the free coinage of American silver and a high tariff on foreign silver. Wyoming delegates believe that this coinage of the American product will find favor in the eyes of every free silver man in the country, and that with it and McKinley every western state can be carried for the republican party. Several of the Colorado delegates commented favorably on the Wyoming plank.

Word was brought to the silver headquarters that Senator Pettigrew of South Dakota had secured control of the state delegation for free silver, and all day delegates from Texas, New Mexico, California, Michigan, Indiana, Missouri and even from New York dropped in on the Colorado men and said they were with the silver men either actively or sympathetically.

Senator Teller received a long telegram from the Illinois Agricultural Press association, in convention at Chicago, urging him to lead his delegates out of the convention because of the great moral effect it would have.

The free silver men will not make a move in the convention until the committee on resolutions makes its report. Up to that point, so far as the convention is concerned, the delegates who may leave St. Louis stigmatized as "bolters" twenty-four hours before the first nominating speech is made will be republicans like the other republicans. In the meantime, however, Senator Teller will be fighting for the free silver cause in the committee on resolutions. The fight then will be carried to the convention, and the confidence displayed tonight by the radical "never-say-die" free silver men indicates that they expect strong support from sources not now suspected by the outsiders.

St. Louis, Mo., June 16.—The following are the members of the com-

mittee on resolutions so far elected. The others will be chosen at adjourned meetings of the state delegations to be held today:

Alabama, H. V. Coshin (gold); Arizona, (silver); Arkansas, John McClure (gold); Colorado, H. M. Teller (silver); California, A. B. Lemon (silver); Connecticut, Samuel Fessenden (gold); Delaware, (two), J. Edward Addicks (gold), others not elected; District of Columbia, (gold); Florida, (two), I. L. Purcell, J. W. **JAMIESON WINS OUT.**

**Will Represent the State of Illinois on the National Committee.**

St. Louis, Mo., June 16.—Dr. T. N. Jamieson was elected member for Illinois of the republican national committee by the Illinois delegation to the national convention at a meeting held Monday afternoon in the Southern hotel. The delegation passed resolutions declaring for the maintenance of the present gold standard; asserting that protection and reciprocity should be made the paramount issue by the republican party in the coming campaign, and advocating the establishment of the headquarters of the national committee at Chicago. The following selections, besides national committeemen, were made by the delegation:

Chairman of the Delegation in the National Convention—Richard J. Oglesby. Vice Chairman—Joseph W. Fifer. Member of the Committee on Resolutions in the National Convention—R. W. Patterson. Member of the Committee on Credentials—W. A. Rodenberg. Member of the Committee on Permanent Organization—J. Otis Humphrey. Member of the Committee on Rules and Order—Sergeant McKnight. Member of the Committee to Notify Nominee for President—Charles H. Deere. Member of the Committee to Notify the Nominee for Vice President—Isaac L. Elwood.

**Platt Defeats Warner Miller.**

St. Louis, June 16.—An attempt was made by Warner Miller to defeat Thomas C. Platt for the chairmanship of the New York delegation, but the vote resulted: Platt, 53; Miller, 17. Mr. Cornelius Bliss offered this resolution:

"Resolved, That the New York delegation favors and heartily supports the strongest statement that can be devised, recognizing the imperative necessity of maintaining the present gold standard of value and condemning the free coinage of silver."

Mr. Quigg offered this substitute, which he and Mr. Lauterbach said was favorably received by a majority of the state delegation and was originally passed by the state convention of Washington:

"We favor the maintenance of the present gold standard and are opposed to the free coinage of silver except by international agreement for bimetallicism with the leading commercial nations of the world."

This was finally agreed upon by putting the two resolutions in conjunction, using Mr. Bliss' as a preamble and Mr. Quigg's for a resolution. As a result of the meeting it is found that seventeen of the seventy delegates will cast their votes, not for the New York state convention choice, but for William McKinley.

**For Illinois Democratic Convention.**

Peoria, Ill., June 16.—The temporary officers of the democratic state convention have been officially announced as follows: Temporary chairman, Alexander H. Bell of Carlinville; temporary secretary, Joseph A. Weil, Peoria; sergeant-at-arms, Col. W. S. Burroughs of Waterloo. The selections were made at a meeting of the executive committee of the democratic state central committee held Monday in the room of W. H. Hinrichsen, the chairman, at the National hotel.

**Turkey Strong Afield.**

Turkey's military system makes trained soldiers of nearly all able-bodied men. The standing army numbers 180,000 men, and the soldiers who have served six years and passed into the reserves would raise the forces that could be placed in the field to 300,000. The Turkish navy consists of 19 iron-clads, frigates and corvettes, with about 250 wooden vessels stationed at different points on the coast. Here are men and ships enough to make a determined resistance, but the treasury is in no condition to maintain them during a long war.

**Democratic State Convention.**

On account of above occasion, the North-Western Line will, on June 22 and 23, sell excursion tickets to Milwaukee and return at one fare for the round trip. Tickets good returning until June 25, 1896. For tickets and full information apply to Agents Chicago & Northwestern Ry.

**New York Banker Shot.**

New York, June 16.—George H. Wyckoff, president of the bank of New Amsterdam, was shot twice in the side Monday afternoon while in his private office in the bank by Clarence Clark. Clark demanded money, and, meeting with a refusal, fired the shots and then turned the pistol on himself. Both men are now at the New York hospital in an unconscious condition. Mr. Wyckoff is 60 years old and resides in Montclair, N. J. Clark is about 30 years old.

**Declares for Free Silver.**

Charleston, W. Va., June 16.—Gen. C. C. Watts, who was nominated for governor on the democratic ticket, has made an unequivocal declaration in favor of free silver at 16 to 1, regardless of any other nation. Watts had been considered favorable to gold and was expected to remain non-committal.

**Michigan Silver Forces to Organize.**

Lansing, Mich., June 16.—At a conference of silver men representing all political parties, held in this city Monday, a call was issued for a mass-convention to be held in Lansing July 16 to complete the organization of an independent silver party and to elect thirty-four delegates to the national silver convention at St. Louis. James M. Turner of Lansing was elected chairman and George F. Richardson of Grand Rapids secretary of a provisional central committee. The executive committee was instructed to secure, if possible, Senator Tillman to address the mass-convention next month and all believers in free silver, irrespective of party affiliations, were invited to participate therein.

**National Republican Convention at St. Louis.**

The Chicago, Milwaukee & St. Paul Railway Company will sell round trip excursion tickets to the St. Louis National Republican Convention, at half-fare on June 13, 14 and 15, good to return up to and including June 21. Trains leave Jamesville at 9:35 a. m. and 11:30 a. m.

**HER HAPPY DAY.**

**A CHARMING STORY OF MEDICINE AND MARRIAGE.**

**Two Open Letters From a Chicago Girl—Her Happiness Came to Her.**

Among the tens of thousands of women who apply to Mrs. Pinkham for advice and are cured, are many who wish the facts in their cases made public, but do not give permission to publish their names for reasons as obvious as in the following, and no name is ever published without the writer's authority; this is a bond of faith which Mrs. Pinkham has never broken.

Chicago, Jan. 5th, '95. My dear Mrs. Pinkham:—A friend of mine, Mrs. —, wants me to write you, because she says: "you did her so much good." I am desperate. Am nineteen years of age, tall, and weighed 138 pounds a year ago. I am now a mere skeleton. From your little book I think my trouble is profuse menstruation. My symptoms are: • • • • •

Our doctor (my uncle) tells father that I am in consumption, and wants to take me to Florida. Please help me! Tell me what to do, and tell me quickly. I am engaged to be married in September. Shall I live to see the day? • • • • • LUCY E. W.

Chicago, June 16th, '95. My dear Mrs. Pinkham:—This is a happy day. I am well and gaining weight daily, but shall continue the treatment and Vegetable Compound during the summer, as you suggest. Uncle knows nothing about what you have done for me, because it would make things very unpleasant in the family. I would like to give you a testimonial to publish, but father would not allow it. • • • • • I shall be married in September, and as we go to Boston, will call upon you. How can I prove my gratitude? • • • • • LUCY E. W.

Just such cases as the above leak out in women's circles, and that is why the confidence of the women of America is bestowed upon Mrs. Pinkham.

Why are not physicians more candid with women when suffering from such ailments?

Women want the truth, and if they cannot get it from their doctor, will seek it elsewhere.

Here is a New One.

We have just received a new line of oxford tan shoes for ladies, with the new half dollar toe. We ask \$3.50 for them, and are sure you will see that much value in them. A. Richardson Shoe Company

**MILLINERY****At Cut Prices. . . . .**

The June sale starts Tuesday, with the prices on many lines cut in two. An immense stock of untrimmed Straw Hats, of Flowers, of Ribbons, of Laces, of Veilings, of Braids,—of everything in the line of Millinery, at prices in many cases half and one-third less than formerly,—and bear in mind that this refers to up-to-date goods and of styles that are right. Our trimmers will take the same care in executing orders, and nothing, no matter how cheap it may be, will be slighted.

**Come To Us For MILLINERY. . . . .**

During this month and you will be amply repaid. Special prices will be mentioned in a day or so; watch for announcements.

**ARCHIE REID & CO.**

**Light Lawn Mowers at Lowell's**

No excuse for ill-kept lawns when Lawn Mowers that almost run themselves can be bought so cheap. We show six styles.

**Lawn Hose at Lowell's**

We don't intend to carry any Lawn Hose over. If your outfit is getting old replace it with new. The price just now is trifling.

**Up-To-Date Ice Boxes at Lowell's**

Get the right kind of Refrigerator and get it big enough. The saving of food not generally kept in a Refrigerator will more than pay for the extra cost of the larger one in the first year's use.

**Safe Oil Stoves at Lowell's**

So many accidents from the use of Gasoline Stoves, but if you will come in and look at the Quick Meal and let us explain them fully we will guarantee you will see their superiority over other makes.

**Summer Shoes at Lowell's**

Stylish Shoes are offered as low as 60 cents at Lowell's. The day of big margins in Shoe Leather is past.

**Adjustable Screens at Lowell's**

No need of carpenters to fit our Adjustable Spring Window Screen. One Screen fits any window.

## Parasols

Have you seen our line? We show more than one hundred different styles, and no two alike. If you want a late style Parasol and at the same time one that you will not see duplicated a half dozen times every time you go on the street we can fit you out and do it for a very little money. We are sure we can please you, not only in style and design but in price as well.

## Ladies' Ties, Scarfs and Bows

We are having a great sale on these goods; evidently the ladies know where to find the proper styles at the proper prices. We are selling 30, 35 and 40c values for 25c and regular 25c bows for 15c.

## 9 cent DIMITIES

A fresh lot on sale at this price---regular 12½ and 15c goods. No old styles in this lot---all desirable patterns and fine sheer qualities

## Laces

We have them, and such a line. All kinds and descriptions in white, cream, butter and linen colors. Our way of marking Laces is different from most merchants'. We add a fair average Dry Goods profit to ours. Most merchants expect to double or most double their money on Laces. Therefore we save you big money even if the quantity you want is small.

#### THE NEW SCIENCE.

It Reads the Character of People by Examining the Teeth.

What, another! Yes, palmistry has a new rival. Phrenology is way back, physiognomical research proves too unreliable, but here is a method that is declared to be unerring, infallible, and then, so blessedly recent, says the Boston Herald. Teeth reading is the latest, the very latest, means of investigating character. Open your mouth! For the horse dealer's judgment is now to be applied to the world at large, but, instead of "age," it is temperament, disposition, with all the attendant virtues and vices, that the knowing seer will be able to read in those ivories which nature—not art, let it be added—has fixed there, as so many sign boards. This science is the result of a necessity for something new and startling, and it will be admitted by professors of a dental complement that there is something in it. Professors affirm that there are two or three deep-rooted reasons for believing that teeth are the index of a man's nature. At all events teeth that are long and narrow indicate a grasping disposition; small, white separate molars mark his treachery; inconsistency is marked by overlapping teeth, and where they are widely parted he is sure to tell all he knows. Thus saith the believer in the new science. Mr. Roosevelt's fine teeth have been the subject of considerable comment by the New York newspapers ever since he was made police commissioner, but nobody has as yet applied to them this theory of character reading. Why not try it on now? Would it not be a laudable experiment to try this same method to all sorts of persons—beginning, of course, very early in life, before the dentists have upset nature's handiwork with their artifices and made "improvements" on that good lady's crude and early efforts? People who wear false ones would be out of the running, but surely everybody else must be charmed to try teeth reading. Even if Dr. Oliver Wendell Holmes did say men made their own mouths, outside of a dental college they are not responsible for the shape of their teeth. If, as a race, we Americans are not of the Mr. Carver order, and haven't handsome, white teeth let alone good and moral teeth—it should not be laid up against us. However, if there must be as many new sciences as there are fashions, this infant one is as well as another, and may yet grow to dignified proportions, though it is feared it will be some time before it is self-supporting.

#### THE USES OF COAL TAR.

It Is Employed by Chemists in Compounding Many Valuable Medicines. The variety of useful products obtained in the laboratory from coal tar is amazing, says the New Orleans Times-Democrat. This substance, formerly thrown away as worthless, serves the purpose of the synthetic chemist admirably, inasmuch as it is a

very elaborate organic compound, very cheap and containing a great variety of elements. It has furnished hundreds of new and valuable medicines, particularly anti-fever remedies. From it are obtained the aniline dyes which give all the colors of the rainbow. Aniline itself is colorless, its salts having the brilliant hues. From coal tar also saccharine and dulcine have been derived. Each of them is more than 200 times as sweet as sugar, the latter being more pleasant to the taste.

Formerly no dye material exceeded madder in commercial importance. It was the basis of nearly all dyes and the root from which it was obtained was grown on a great scale in Europe and Asia. But alizerin obtained from coal tar has destroyed this agricultural industry by driving the plant out of the market. Alizerin is the coloring principle of madder. From coal tar also comes purpurine, which nowadays forms the basis of many dyes. Some time ago Baeyer, a German chemist, manufactured indigo as pure as that yielded by the plant. Commercially speaking, the artificial indigo has not been a success, simply because other dyes made in the laboratory do the same work more cheaply. Everybody knows that the "artificial camphor" sold in the shape of "moth balls" is gotten from coal tar.

#### How Thaddeus Felt.

Congressman Brosius of Pennsylvania tells this story about Thaddeus Stevens, according to yesterday's Washington Post: "Stevens was championing some bill in congress which aroused the opposition of the combined Southern members. He made a brilliant speech in favor of it, and equally brilliant speeches were made on the other side and the upshot of it was that Stevens was outvoted after a very bitter and passionate partisan debate. Stevens was still boiling with disappointment and bitterness when Tombs, of Georgia, in a taunting way, asked him: 'Well, Stevens, how do you feel over your defeat?' 'Feel,' snapped back Stevens, 'I feel like the poor man at the rich man's gate, who was licked by the dogs.'"

#### Most Wonderful Little City.

The most wonderful city within the limits of the United States, and which has no existence whatever during the summer months, is Fish City, Mich. This municipal oddity is built on the ice of Saginaw Bay regularly every winter and is occupied by men and their families, who are engaged in catching, cleaning and packing lake trout and white fish for the market. Fish City is situated in the same cove every winter, and is built of rough pine boards. In the winter of 1893-94 it had a population of nearly 3,000, and in 1894-95 almost twice that number.—Exchange

## MR. CARLISLE TELLS OF BOND ISSUES

SECRETARY CARLISLE EXAMINED UNDER OATH.

Answers Questions Put to Him by Senator Vest and Other Members of the Committee Named to Investigate Some Explanations.

Washington, June 16.—Secretary Carlisle was examined under oath Monday by the senate committee appointed to investigate recent bond issues. The hearing was held in the rooms of the senate committee on finance, Senators Harris, Vest, Walthall, Jones (Nev.) and Platt being present.

Mr. Vest began the examination, asking for fuller explanation of the first bond contract with the Morgan syndicate than had been given in Mr. Carlisle's written statement. His main purpose, Secretary Carlisle said, was to prevent the shipments of gold from this country.

Mr. Vest asked why the contract had been given to the syndicate, to which Mr. Carlisle replied with a lengthy explanation of the great emergency existing which would not permit a delay for the usual formalities of a bond sale. Mr. Carlisle went on to explain that the president was kept advised of all the phases of the negotiations.

Mr. Walthall of Mississippi went into the question of how the negotiation with the syndicate had been initiated. The secretary's impression was that it had been initiated on a visit to Mr. Belmont. One of Mr. Walthall's questions brought out a statement from Mr. Carlisle as to the critical condition of the treasury at the time the syndicate contract was made. The fact was, he said, that the treasury had reached the point where there were gold certificates outstanding which it had no gold to meet. He had never stated this fact before.

"I suppose you never contemplated paying in silver?" inquired Mr. Vest. The secretary replied that the present policy of paying gold had been followed so long that he did not consider it expedient to depart from it at a time of emergency.

Mr. Platt inquired as to current reports that Mr. Carlisle at one time had contemplated paying in silver, but that "it had come to the ears of the president, who said it must not be done."

Mr. Carlisle said he had heard of these reports, and the statement that the president had overruled him had not a word of truth in it.

Assistant Secretary Curtis was examined rapidly and pointedly by Mr. Vest. Mr. Curtis said he had gone to New York by direction of Secretary Carlisle before the syndicate bond contract was made to ascertain the temper of the situation. He had visited bankers, officials, etc.

"Did you expect to get the temper of the situation from the bankers?" asked Mr. Vest.

The assistant secretary responded that he had talked with men at the clubs and with Mr. Fairchild and Mr. Stewart. His first specific instructions from Mr. Carlisle were to "go and see Belmont."

The secretary directed him to see what could be done to get gold from abroad, but authorized no proposition to be made. Mr. Belmont showed his unfavorable cablegrams from Europe.

Mr. Vest's questions indicated surprise that Mr. Belmont should know of the treasury's need of gold and should be negotiating with Europe before Mr. Curtis had arrived.

## BASEBALL REPORT.

Games Played in the National League Yesterday.

The Chicagoans seem to be paving the way for a grand-stand finish to their trip abroad. Two victories at Baltimore alone were sufficient to erase the memory of several of those previous defeats. Three out of six this week would put the Colts in good society again. Brooklyn does not play any favorites. It treats Baltimore the same way it did Cleveland. Now, Tebeau's men are in the lead again. Repeal the Single Plank.  
Marquette, Mich., June 16.—A compromise has been effected between the two contending factions in the state convention of the Woman's Christian Temperance union, one of which was for committing the union to the support of the new national party and the other was against the indorsement of any party. But the compromise is substantially a victory for the national, inasmuch as the single plank idea of the prohibitionists is repudiated and support pledged to any party which recognizes equal suffrage as an issue coordinate with prohibition.

## Parasols.

Have you seen our line? We show more than one hundred different styles and no two alike. If you want a late style parasol and at the same time one that you will not see duplicated a half dozen times on the street, we can fix you out and will do it for a very little money. Bort, Bailey & Co.

It would be hard to convince a man suffering from bilious colic that his agony is due to a microbe with an unpronounceable name. But one dose of DeWitt's Colic and Cholera Cure will convince him of its power to afford instant relief. It kills pain. C. D. Stevens.

Home Seekers Excursions to the West South and North.

On June 9 and 23, the Chicago, Milwaukee & St. Paul railway will sell excursion tickets at half rates plus \$2 for the round trip to points on its own line in Iowa, Minnesota, Dakota and northern Wisconsin. Also to points on other railways both south and west.

When we consider that the intestines are about five times as long as the body, we can realize the intense suffering experienced when they become inflamed. DeWitt's Colic and Cholera Cure subdues inflammation at once and completely removes the difficulty. C. D. Stevens.

A June Excursion to the Famous Dells of Wisconsin.

An excursion to the Dells of Wisconsin in June, a time when all nature is most beautiful will be given under the auspices of the Janesville Cleophasic society on Wednesday, June 17, over the Chicago, Milwaukee & St. Paul railway. The train will leave at 7:30 a. m. and a cordial invitation is extended to the public to join in a day of rare enjoyment. A trip seven miles up the Wisconsin river through the Dells and the railway fare for the round trip is only \$2. Remember the date, June 17.

Pass the good word along the line. Piles can be quickly cured without any operation by simply applying DeWitt's Witch Hazel Salve. C. D. Stevens.

Reduced Rates to Washington.

The Young People's Society of Christian Endeavor will hold their annual meeting in Washington, D. C., July 7 to 13.

For this occasion the B. & O. R. R. Co. will sell tickets from all points on its lines, west of the Ohio river to Washington, at one single fare for the round trip, July 4 to 7, inclusive; valid for return passage until July 15, inclusive, with the privilege of an additional extension until July 31 by depositing tickets with Joint Agent at Washington.

Tickets will be sale at stations of all connecting lines.

Delegates should not lose sight of the fact that all B. & O. trains run via Washington.

"Wake up, Jacob, day is breaking!" so said DeWitt's Little Early Risers to the man who had taken them to arouse his sluggish liver. C. D. Stevens.

Low Rates To Cleveland.

The Nobles of the Mystic Shrine will meet at Cleveland, June 23 and 24.

For his occasion the B. & O. R. R. Co. will sell tickets at reduced rates from all points on lines west of the Ohio river, for all trains of June 21 and 22, valid for return passage until June 25. The fare from Chicago will be \$8.50 and correspondingly low rates for all other points. Tickets will also be on sale at all points throughout the west.

The B. & O. is the only line running Pullman sleeping cars between Chicago and Cleveland.

Low Rate to Milwaukee.

For trotting meeting, National Driving Club, the Northwestern line, will, from June 16 to 20, inclusive, sell excursion tickets to Milwaukee and return at low rates. For tickets and full information apply to agents Chicago & Northwestern Railway.

## SHAKERS AND DOCTORS TALK TOGETHER.

In his able work entitled 'Longevity' published a few years ago, Dr. John Gardner, of England, predicts that a vegetable agent will yet be found that shall so retard those changes that bring about old age as to prolong human life much beyond its present limit.

Acting, perhaps, upon the impulse produced by this thought, many eminent physicians have called from time to time upon the Shakers of Mt. Lebanon to inquire of them concerning the secrets of medicinal plants, in which these sincere, simple-minded and God-fearing people are known to be wise and skillful beyond all other men.

The Shakers willingly told what they had learned, and in return received from their visitors much valuable information about disease; which they at once made practical use of. The most important point was that if a genuine and certain remedy could be found for indigestion and dyspepsia, and the ailments growing out of it, a long step would be taken in the right direction. Old age, said the physicians, begins in a failure of the digestion, and so do most diseases at any and all periods of life. The result of these consultations was the discovery by the Shakers, of the desired specific, made wholly from herbs, and now known as the Shaker Digestive Cordial. Its action is magical and worthy of its origin.

Where there is distress after eating, heart-burn, sick headache, bad taste in the mouth, biliousness, weakness, and weariness, cold hands and feet, aversion to food, nervousness, or any other symptom of dyspepsia, the Cordial will prove its curative virtues. Behind it is the reputation of a people who have never defrauded or deceived fellow men. In order to test whether this remedy is adapted to your case, at practically no cost, you may procure a trial bottle for ten cents of almost any druggist.
